DSA AND PARTICIPANT DIRECTORY PORTAL & PUBLISHED REPORTS UPDATES:

- [SB 660](#) established in section (f) new organization types that are required to sign the DxF Data Sharing Agreement and provided additional information to more clearly define some of the organizations already required to sign the Data Sharing Agreement in [Health and Safety Code § 130290](#). In response to these changes, HCAI is updating the [DxF DSA Signing and Participant Directory Portal](#), effective January 1, 2026, to include organization types and subtypes to describe these organizations in alignment with SB 660. New signatories after January 1, 2026 will see those new options for organization types and subtypes. Existing signatories can revise their organization's types and subtypes in the Portal if more a more appropriate option is made available.
- [SB 660](#) established in Health and Safety Code sections (b)(1) and (b)(3) new deadlines for some organizations to begin to provide access to or exchange of health and social services information via the DxF. In response to those additions, HCAI is updating the [DxF DSA Signing and Participant Directory Portal](#) effective January 1, 2026, to include the ability for those organizations to elect to exercise the option to delay exchange until January 31, 2026, July 1, 2026, or January 31, 2029, as appropriate to the organization and allowed by SB 660 and the [Requirement to Exchange Health and Social Services Information P&P](#). Please see the instructions in the Portal when determining whether your organization may consider those options.
- The [DSA Signatory List](#) or the [Participant Directory Listing](#) will begin to include the new organization types and subtypes and dates for delaying exchange described above in January 2026. Updates will be made to the [Data Sharing Agreement Signatory List Format Guide](#) and the [Participant Directory Flat-File Listing Format](#) for more information on how these listings changed and adjustments you may need to make when ingesting these files.
